

Francesco Menegoli

1529 Sun Ln San Jose, Ca 95132 | (408) 571-9919 | fp.menegoli@gmail.com

Summary

Undergraduate Electrical Engineering student with hands-on experience in PCB and digital hardware integration for drones and racecars. Proficient in VHDL, Python, C, and simulation workflows, with a strong foundation in schematic and wiring design. Collaborative team contributor with effective communication and documentation skills, aiming to apply RTL design and verification in AI accelerator projects.

Skills

- **Programming Languages & Scripting:** C, Python, Verilog/SystemVerilog, VHDL, Scripting Shell
- **Hardware & Digital Design:** Digital Design Fundamentals, circuits, PCB, signals/systems
- **Tools & Software:** SolidWorks, Adobe Toolchain, KiCAD, Simulation Tools
- **Soft Skills:** Excellent communication skills, both verbal and written

Activities

UCSC Los Hermanos

active member

- An organization for Latino cultural pride and peer support

UCSC Human Computer Interaction Club

active member

- Engineers on different career paths work together to research and explore UI and UX design

Experience

Drone Hopper

Jun 2025 - Aug 2025

Summer Engineering Intern

Madrid, SPAIN

- 3D designed electrical assembly of industrial drones
- Designed wiring schematics for power distribution, applying digital design fundamentals to optimize signal integrity and circuit performance
- Collaborated with design engineers to complete drone design

UC Santa Cruz

Dec 2024 - Jun 2025

CITRIS Drone Research Assistant

- Researched agricultural applications by simulating drone and thermal scanner interactions using simulation tools to model environmental variables
- Collaborated with colleagues and professor to scan fire-prone zones, automating data collection and analysis with shell scripting
- Studied for and passed FAA Part 107 Drone License Exam

Formula Slug

Sep 2024 - Present

Hardware Integration Team Member

- Designed PCB schematics for electric racecar high voltage components
- Designed hardware enclosures for various car components
- Assembled components on car, harnessed wires for electrical components
- Self-taught engineering softwares such as: rapidharness, KiCAD, Onshape

Education

University of California, Santa Cruz

Sep 2023 - Present

Electrical Engineering

- **GPA:** 3.72

Piedmont Hills High School, San Jose

Jun 2023

Diploma

- **Achievements:** Cum Laude honors for academic excellence and maintaining a high GPA.
