

Francesco Menegoli

1529 Sun Ln., San Jose, CA 95132 (408) 571-9919 fp.menegoli@gmail.com

Skills

- Coding in C, Python, VHDL
- Designing in SolidWorks, Adobe Toolchain, KiCAD
- Fluent in Spanish, Dual U.S. / Italian Citizenship (EU Passport holder)
- Completed coursework in circuits, PCB, signals/systems
- Active Remote Pilot License

Experience

Summer Engineering Intern, *Drone Hopper*, Madrid, SPAIN June 2025 – August 2025

- Synthesized 3D CAD for electrical assembly of heavy-duty firefighting drones
- Designed schematics for power distribution
- Collaborated with design engineers to complete drone design

Drone Research Assistant, *CITRIS*, UC Santa Cruz Dec. 2024 - June. 2025

- Researched agricultural sector using drones and thermal scanners
- Collaborated with colleagues and professor to scan fire-prone zones in California
- Learned rules and regulations to pass FAA Part 107 Drone License Exam

Hardware Integration Team Member, *Formula Slug*, UC Santa Cruz Sep. 2024 - Present

- Designed PCB schematics for high voltage components of an electric racecar
- Constructed hardware enclosures for various car components
- Assembled components on car, harnessed wires for electrical components
- Self-taught engineering software such as: RapidHarness, KiCAD, Onshape

Education

Electrical Engineering, B.S., *University of California, Santa Cruz* Sept. 2023- Present
Current GPA: **3.72** Expected graduation: June 2027

Activities

- *Pensieve AI*, UCSC Lead Student Ambassador
Organized regularly scheduled tabling events to promote Pensieve AI applications for students.
- *UCSC Human Computer Interaction Club*, Active Member.
Worked with fellow engineering students to research and explore UI and UX design
